

**MASTER OF JURISPRUDENCE COURSE DESCRIPTIONS**  
**April 17, 2013**

**MJ 726: ADMINISTRATIVE LAW (2 credits)**

This course studies the law governing administrative agencies in the task of carrying out governmental programs. The course is organized into three parts: creation of agencies, what agencies do, and how agencies are controlled. Through the use of a variety of practical examples students will learn how agencies are created, what they do, and how they are controlled. The emphasis of the course is on the function and control of agency processes.

**MJ 722: AUDITING & MONITORING (3 credits)**

This course examines the processes for auditing and monitoring a company to ensure adherence with the company's compliance programs. During this course, students will learn practical skills in performing risk assessments and audits and the techniques to utilize internal monitoring and auditing tools and resources. Students will be exposed to how to conduct effect audits in order to correct and improve corporate operations through follow-up, monitoring, process change and education. Students will demonstrate the importance of benchmarking and reporting to both internal and external parties, in order to ensure compliance with applicable federal and state laws. Students will also learn best practices to use when responding to external and/or government audits and investigations.

**MJ 631: BUSINESS ORGANIZATIONS AND ETHICS (3 credits)**

This course offers a comprehensive survey of the law of business associations from sole entrepreneur through partnership and corporate formation. It includes a broad examination of merger, acquisition, director's liability and other corporate law topics. Principal emphasis is on the law as it applies to the organization and functioning of corporations. Shareholder agreements, classes of shares, rights of first refusal, methods of financing, and voting trusts are also incorporated. This course will also discuss and examine the ethical issues as they relate to the formation and operation of various business associations.

**MJ 844: BUSINESS PRINCIPLES (3 credits)**

This course introduces concepts and documents which are essential to understanding business law. These concepts and documents include basic accounting principles, present value and risk, discounted cash flow analysis, option value, basic financial analytical tools, and basic business financing forms (including trust indentures, shareholder's agreements, and preferred stock terms).

**MJ 732: CAPSTONE PROJECT FOR GLOBAL COMPLIANCE AND ETHICS CERTIFICATE (3 credits)**

This Capstone course is the culminating course/event for all the other courses and content a student has undertaken to achieve the MJ degree. It is the intent of this course that the student will bring to bear all the learning and knowledge from the previous courses to show competence in the field of Compliance. Students will have an opportunity to design a compliance program and learn the fundamentals of rolling out a program for a global

corporation and updating and refocusing a current program. In addition, the students will develop fully annotated and professional PowerPoint presentations and record a presentation, which could ultimately be used to present the above content to their corporate leadership. Students will be given examples of possible SCCE questions based on material already provided in this program. Students will compile materials for use in a professional portfolio that can be used in employment interviews.

**MJ 728: CAPSTONE PROJECT FOR MJ CORPORATE: REGULATORY ANALYSIS & COMPLIANCE CERTIFICATE (3 credits)**

This Capstone course is the culminating course/event for all the other courses and content a student has undertaken to achieve the MJ degree. It is the intent of this course that the student will bring to bear all the learning and knowledge from the previous courses to show competence in the field of Compliance. Specifically, we expect students to submit a comprehensive work, by developing a Compliance Program. In addition, the students will develop fully annotated and professional PowerPoint presentations and record a presentation, which could ultimately be used to present the above content to their Corporate leadership. Students will be given examples of possible SCCE questions based on material already provided in this program. Students will compile materials for use in a professional portfolio that can be used in employment interviews.

**MJ 729: CAPSTONE PROJECT FOR MJ HEALTH: REGULATORY COMPLIANCE CERTIFICATE**

This Capstone course is the culminating course/event for all the other courses and content a student has undertaken to achieve the MJ degree. It is the intent of this course that the student will bring to bear all the learning and knowledge from the previous courses to show competence in the field of Compliance. Specifically, we expect students to submit a comprehensive work, by developing a Compliance Program. In addition, the students will develop fully annotated and professional PowerPoint presentations and record a presentation, which could ultimately be used to present the above content to their Corporate leadership. Students will be given examples of possible HCCA exam questions based on material already provided in this program. Students will compile materials for use in a professional portfolio that can be used in employment interviews.

**MJ 6029: COMPLIANCE IRREGULARITIES & FINANCIAL FRAUD (3 credits)**

Recently, the escalation of highly publicized allegations of accounting irregularities and fraudulent financial reporting have stunned the corporate community and has been the impetus for the Sarbanes-Oxley Act of 2002, as well as closer scrutiny by the SEC. This course will review the various stages of financial crises that occur when a company finds itself in the wake of fraudulent financial reporting—including how to prevent it from happening in the first place. The course will also examine the corporate environment that causes fraudulent financial reporting, how it spreads, the kinds of crises it can create for a company, and the best way to deal with them.

**MJ 663: CONTRACT DRAFTING (3 credits)**

Contracts begins with the building blocks of contracts, then sets out the framework of an agreement and works through it from the preamble to the signature lines, in each instance discussing the business, legal, and drafting issues that occur in each part of a contract. The course then examines drafting rules for good writing and to techniques to

enhance clarity and to avoid ambiguity. In addition, the course will explore ethical issues relating to contracts drafting. These issues go beyond issues of confidentiality and client conflicts; considering some of the issues that are unique to contract drafting. Finally, the course will consider the nexus between drafting and the business deal and focus on the role as business counselor.

**MJ 6066: CONTRACTS AND NEGOTIATIONS (3 credits)**

This course begins with the building blocks of contracts, then sets out the framework of an agreement and works through it from the preamble to the signature lines, in each instance discussing the business, legal, and drafting issues that occur in each part of a contract. The course then examines drafting rules for good writing and the techniques to enhance clarity and to avoid ambiguity. In addition, the course will explore ethical issues relating to contracts and negotiations. These issues go beyond issues of confidentiality and client conflicts; considering some of the issues that are unique to transactions – both in the context of drafting and negotiation. Finally, the course will consider the nexus between drafting and the business deal and focus on the role as business counselor.

**MJ 721: CORPORATE DEVIANCE (3 credits)**

This course will provide students with a comprehensive examination of the deviant behavior of big business in contemporary society. The course exposes students to the forms and causes of this deviance and the legal and societal responses to such deviance through the use of recent cases brought by individuals, corporations, and the government in specific areas of the law. Each week the students will read, analyze and engage in a guided discussion of corporate deviance cases including cases regarding subprime lending, securities, anti-trust, healthcare, whistleblower, and products liability

**MJ 703: CORPORATE COMPLIANCE & ETHICS I (3 credits)**

This course builds on MJ 6063 CORPORATE REGULATORY COMPLIANCE: RULES & STANDARDS by delving deeper into the governing compliance laws and regulations. We will analyze and discuss in more detail and with case scenarios topics ranging from Sarbanes-Oxley to export controls, antitrust law, data protection and anti-corruption laws (such as the Foreign Corrupt Practices Act).

**MJ 725: CORPORATE COMPLIANCE & ETHICS II (3 credits)**

This class builds on MJ 6063 CORPORATE REGULATORY COMPLIANCE: RULES & STANDARDS and is the continuation of MJ703 CORPORATE COMPLIANCE & ETHICS I. We will delve deeper into the whistle-blower provisions of the Dodd-Frank Act, the Federal Sentencing Guidelines and other issues relating to government investigations and dispute resolution. Throughout this course we will discuss practical issues relating to the development and implementation of corporate compliance programs.

**MJ 6063: CORPORATE REGULATORY COMPLIANCE: RULES & STANDARDS (3credits)**

Corporate compliance is of increasing importance in corporate America. More and more companies are developing and implementing programs to ensure compliance with governing laws and regulations and to promote an environment that fosters compliance and encourages ethical behavior. This course will examine the central principles and statutory and regulatory framework that govern this growing field. We will analyze and

discuss topics ranging from Sarbanes-Oxley to export controls, antitrust law, data protection and anti-corruption laws (such as the Foreign Corrupt Practices Act). We will also delve into the whistle-blower provisions of the Dodd-Frank Act, the Federal Sentencing Guidelines and other issues relating to government investigations and dispute resolution. Throughout this course we will discuss practical issues relating to the development and implementation of corporate compliance programs.

**MJ 509: CRITICAL LEGAL ANALYSIS & WRITING (3 credits)**

This foundation course introduces basic legal analysis including rule-based reasoning, and case synthesis. Learning occurring during the summer Introduction to Law course is reinforced and expanded upon. Students are also introduced to independent legal research skills. Course projects include a series of short graded assignments highlighting aspects of compliance writing.

**MJ 929: EXTERNSHIP (2-3 credits)**

This Externship seeks to provide qualified students with supervised work experience during the student's second semester course of study for a Master of Jurisprudence in Health Law. The Externship Director will undertake to coordinate students within a variety of settings including but not limited to hospitals, pharmaceutical companies, and corporations ("Sponsors") in the Delaware Valley region. The student's externship shall be under the supervision of practicing attorneys or experienced field supervisor and the Externship Director. This Externship strives to prepare students for the vast field of compliance and health law by offering a variety of sponsors and academic requirements. Students must have successfully completed all of all their 1st year required courses, obtain an overall Minimum 3.0 GPA and submit to the Externship Director a current resume and writing sample. In addition to completing 140 hours per semester for a 3 credit course, students are required to also complete online threaded discussions and assignments and attend monthly classroom meetings.

**MJ 731: GLOBAL COMPLIANCE & ETHICS (3 credits)**

More and more companies are developing and implementing compliance programs for their global corporations to ensure compliance with governing laws and regulations and to promote an environment that fosters compliance and encourages ethical behavior. Students will examine various areas of law, regulation, and policy, as well as various industries to adapt the compliance protocols to the global corporation. The course covers U.S., foreign, and international regulation in such areas as antitrust, securities, export controls, anti-bribery law, anti-money laundering law, and foreign corrupt practices. This course will also discuss practical issues relating to why and how a global compliance program is developed and implemented, and will touch on cultural issues relating to a global compliance program.

**MJ 730: GLOBAL TRANSACTIONS (3 credits)**

This course provides an overview of how compliance impacts various industries with global corporations and provides an overview of applicable laws regulating international business transactions. The public regulatory aspects of international trade and the practical application of important areas of U.S. trade law will be explored.

**MJ 6067X: HEALTHCARE ADMINISTRATION (2 credits)**

This online course provides an overview of healthcare administration by examining recent regulations which offer a dramatic impact on healthcare delivery in the United States. Materials and lectures shall emphasize liability of the healthcare institution, access to care, consent for treatment, corporate compliance, and healthcare reform. Students shall analyze recent healthcare regulations and discuss a variety of issues affecting healthcare delivery.

**MJ 723: HEALTHCARE COMPLIANCE & ETHICS I (3 credits)**

This course will focus on the fundamental federal regulations that impact healthcare professionals and organizations. This course will focus on the regulations that are essential to compliance in the healthcare industry, including, but not limited to, fraud and abuse laws and the Affordable Care Act. The course materials will allow students to test their knowledge and understanding with exercises designed to provide practical application. Students will be required to demonstrate an ability to interpret and analyze regulations to address arising compliance issues in a variety of health care settings.

**MJ 724: HEALTHCARE COMPLIANCE & ETHICS II (3 credits)**

This course will build upon the fundamental knowledge students gained in the first part of the course by focusing on regulations that, while not specific to the healthcare industry, have equal impact on healthcare professionals and organizations. Additionally, this course will address the competing interests of federal and state regulations, as well as the underlying corporate ethics principles that must be adhered to. Finally, students will learn the core elements of developing an effective compliance program. Students will be required to demonstrate an ability to interpret and analyze regulations to address arising compliance issues in a variety of health care settings.

**MJ 709: HEALTHCARE QUALITY & LIABILITY (3 credits)**

This on-line course is designed to familiarize MJ students with the legal and regulatory issues of health care using a case-based approach. Students will be introduced to the legal issues that often arise as health care is delivered through the complex network of private providers, government programs, and third party payers, providing an overview of the major legal, ethical and policy issues. Students will have an opportunity to examine and critique healthcare policy with an eye toward legal and regulatory constraints, variables within the healthcare delivery system, and societal issues that may affect the organization and delivery of health care resources.

**MJ 6065: HEALTHCARE REGULATORY COMPLIANCE & LEGAL ANALYSIS (3 credits)**

In this course students will gain an understanding of the regulations that impact compliance in the healthcare profession. During the course, students will view lectures and engage in exercises, both of which are designed to provide a fundamental understanding of the relevant healthcare compliance regulations and the practical application of those regulations. This course is structured in a way that brings into reality

the impact and implications compliance with the numerous federal and state regulations has on affected healthcare professionals and organizations, including medical practitioners, hospitals and pharmaceutical companies. Students will gain practical experience by applying relevant law(s) to both factual and hypothetical compliance scenarios and will be required to demonstrate not only a solid understanding of the regulations related to healthcare compliance, but also an ability to interpret and analyze the regulations to address arising compliance issues in a healthcare setting.

**MJ 600: HEALTHCARE & BUSINESS TRANSACTIONS (3 credits)**

This course provides a beginning to end picture of how Healthcare Law Compliance impacts the pharmaceutical industry and provides an overview of promotional regulatory oversight, and applicable laws regulating compliance. In addition, the course will explore the various business transactions that are encountered within the healthcare arena with heightened focus on the pharmaceutical industry. Students will receive and review potential issues related to in-house compliance and learn how to develop an effective compliance program. The course will incorporate hands-on learning throughout the curriculum and students will be exposed to current industry related issues and experience ways to resolve such issues via assignments geared towards developing essential practical skills such as: risk assessment, mitigation plans, interviewing skills, project management and program development.

**MJ 500: INTRODUCTION TO LAW (2 credits)**

An introduction to the legal system and an explanation of the legislative and judicial processes, how a legal rule is generated and maintained by the judicial system. Emphasis will be placed on civil practice, the development of the law through the court systems, legal memos, torts, contracts, business law.

**MJ 601: INTRODUCTION TO LEGAL NURSE CONSULTANT (3 credits)**

This course is designed for nurses holding a current RN license who wish to expand their knowledge in the health law arena. In today's legal environment, the legal nurse consultant must be educated in many aspects of law, nursing, and medicine, as well as in the collective influences controlling and affecting patient care, legal claims, and litigation. This introductory course will examine the role of the LNC in the health care arena. MJ students will become knowledgeable regarding standards of care, liability issues, professional standards and hospital compliance. This course will provide a practical learning approach to the field of the legal nurse consultant.

**MJ 606: LEGAL MEDICAL RESEARCH (3 credits)**

This course is designed to expand upon Legal Methods in order for students to develop medical research skills. Applications will be through chronology, office memoranda, life care plans, investigation of case evaluations including workers' compensation and surgical claims. Students will apply their legal medical research skills in order to develop a professional work product.

**MJ 607: PRINCIPLES & PRACTICES OF LNC (3 credits)**

This course provides students with the standards of care and liability issues within a medical & legal setting. Students will examine a medical legal case from treatment to

discovery, to legal report writing, research, and trial preparation. Students will be oriented to practical skills of defense medical evaluations, product liability, and toxic torts reports. Emphasis will also be placed on developing business plans and business principles.

**MJ 6028X: REGULATORY COMPLIANCE: HOSPITAL MANAGED CARE (2 credits)**

This course seeks to foster skills needed to assure compliance by hospitals and managed care organizations with governmental regulations and internal corporate policies. Students will learn to identify and respond to circumstances raising regulatory concerns, to navigate and interpret applicable regulatory schemes, draft policies and procedures, and ultimately to create and manage a comprehensive compliance program.

**MJ 629: SECURITIES REGULATIONS (3 credits)**

A study of the federal and state securities laws and the industry they govern with emphasis on the regulation of the distribution process and trading in securities; subjects dealt with include the functions of the Securities and Exchange Commission, registration and disclosure requirements and related civil liabilities, "blue-sky" laws, proxy solicitation and reporting requirements, broker-dealer regulation, the self-regulatory functions of the exchanges, and the regulation of investment companies. This course fulfills the MJ writing requirement. Students will be required to write a twenty (20) page paper on a topic of their choice which complements the course curriculum in place of a written exam. Students will have the opportunity to submit an outline for review prior to the submission of the paper for review and comment. In addition to the paper, students will also be required to prepare a PowerPoint presentation to accompany his or her paper.

**MJ 518: TORTS (3 credits)**

This course examines and analyzes the general theories of tort liability including Intentional Torts and Negligence. This course also introduces principles and theories of strict liability. Emphasis will also be placed on tort defenses as well as touch upon medical malpractice.

**MJ 727: WORKPLACE INVESTIGATION & REPORT WRITING (2 credits)**

When a company learns that there may have been some violation of a law or regulation or company policy, an internal investigation is needed to determine precisely what happened. This course addresses how internal investigations must be structured to help business leaders run their business. An investigation must do more than just prove whether someone committed misconduct. This course details the strategies and tactics that work best. Practical skills application will assist students with learning to plan and conduct thorough investigations and turn the results into valuable knowledge for their organizations. This course will also discuss selling the value of workplace investigations to management; management's legal obligations; structuring the compliance function; the investigation team members; and assisting management to implement the findings. This course will teach student not only how to uncover the truth about misconduct or fraud, but also how to ensure that the results can help an organization resolve issues and move forward.
