

Widener University School of Law  
Office of Campus Services  
Wellness Hall Agreement

I, \_\_\_\_\_, have agreed to live in a Widener University School of Law dormitory area designated as a Wellness Hall for the 2014 -2015 academic year. I understand that by living in a Wellness Hall, I accept the shared responsibility to assist in keeping the area free of all tobacco products, alcoholic beverages, illegal drugs, illegal drug paraphernalia (each of the foregoing a “prohibited substance”), and individuals using, or intoxicated by Prohibited Substances.

I understand that my mere possession of any Prohibited Substance constitutes a violation. Thus, for a violation to occur, a Prohibited Substance does not need to be consumed or opened by me or others, but only within the Wellness Hall under my possession or control. I understand that the presence of a Prohibited Substance in my room constitutes possession of that Prohibited Substance by me. I also understand that I will violate this agreement if I bring another individual into the Wellness Hall with any Prohibited Substance under his or her possession or control. I further understand that my intoxication, use of a Prohibited Substance or being under the influence of a Prohibited Substance in the Wellness Hall constitutes a violation, even if the Prohibited Substance was consumed elsewhere, and that bringing intoxicated persons or persons under the influence of a Prohibited Substance onto the Wellness Hall also constitutes a violation.

I understand that if I violate this agreement once, I will be issued a written warning, and that a further violation will result in my removal from the Wellness Hall. If other housing is available on campus, the University may, in its sole discretion, relocate me to such other housing, but otherwise my housing privileges will be revoked and I will need to move off-campus as soon as possible using my best efforts to find other housing, and in any event, within twenty days of the violation.
